

Capability Statement

Business Overview

- CAGE Code: 58600
- Company Type: C Corporation
- Founded: 1967
- Headquarters: Webster, TX
- Website: <https://rothe.com/>

Industry Certifications

- ISO 9001:2015 Certified (Quality Management Systems)
- ISO/IEC 17025:2017, ANSI/NCSL Z540.3-2006, and ANSI/NCSL Z540-1-1994 Accreditation
- OSHA Star Voluntary Protection Program Site
- AECA and ITAR Registered
- ITIL Service Management
- PMP, ASQ, CQA & CCT certified professionals
- Lead Assessor Training through ANAB

Impact

- **Calibration Metrics** - Delivers 35,000+ calibrated instruments across aerospace, energy, and manufacturing industries annually
- **Fortune 500 companies** - Engineering and IT support solutions.
- **Aerospace & Aviation Industry** - Data and system integration services.
- **Technology Companies** - Cybersecurity and IT infrastructure optimization.
- **Manufacturing & Logistics Firms** - Process automation and facilities support.

Executive Summary

Rothe is a trusted business that transforms the way companies operate by delivering cutting-edge technology, engineering, and workforce solutions. We don't just provide services — we partner with organizations to modernize infrastructure, fortify data security, and streamline operations for maximum efficiency and profitability. With a proven legacy of success in high-profile industries, Rothe blends deep technical expertise with a responsive, client-focused approach that ensures measurable results and long-term value.

Core Competencies

Calibration & Quality Assurance

- Precision calibration for technical and mission-critical equipment.
- Accredited calibration for API equipment and diverse manufacturer systems
- Meets strict industry and regulatory standards.

Technology & IT

- AI/ML-driven platforms using NLP, predictive analytics, and generative AI
- Enterprise IT support and cloud hosting solutions
- Cybersecurity risk management, and data protection Software integration, and system engineering

Engineering & Operations

- System design, testing, and integration
- Hardware logistics and lifecycle management
- Advanced data analytics and automation solutions
- Process engineering and performance optimization

Key Differentiators

- **Unmatched Calibration Expertise:** Delivering high-precision calibration services that meet the strictest industry standards for accuracy and reliability.
- **Proven Track Record:** Trusted partner for major commercial organizations and government agencies, delivering high-value, results-driven solutions.
- **Innovative Approach:** Expertise in cloud transformation, cybersecurity, and IT modernization ensures that our clients are always ahead of the curve.
- **Customer-Centric Focus:** We build strategic, long-term relationships, customizing our services to align with your business goals and challenges. Certified Excellence: Backed by ISO 9001, ITIL, and PMP certifications, we guarantee quality, precision, and reliability.
- **Diverse Expertise:** Our team combines engineering know-how, data intelligence, and operational management to create holistic solutions for complex commercial challenges.
